Summary of Legislation: This bill requires that State Fire Marshal investigators receive the same salaries as police employees of the State Police Department, based on years of service and rank.

Effective Date: July 1, 2005.

Explanation of State Expenditures: (Revised) As of 6/02/04, the Investigations Division of the State Fire Marshal's Office maintained a staff of ten arson investigators. The salaries and tenures of these individuals relative to the Indiana State Police Salary Matrix (as of July 2004) are listed in the table below.

Total Salary Difference:				\$90,466
Including Additional Fringe Benefits Life Ins., Soc Sec, PERF, Disability Life		Plus 17.19%		\$106,017
*Figures above assume that the arson investigator salary increase will be a base salary that applies January 1 of the year. Estimates also assume that salary level corresponds with the number of full years of service. Years of service are based on the anniversary from the date of hire or rehire.				

The impact using current salaries is estimated at \$106,017. Applying a 2% annual increase, the total estimated impact for the first year would equal \$108,000 with an estimated \$110,000 for the second. The bill has an effective date of July 1, 2005, which would result in a salary increase at the beginning of FY 2006.

The State Fire Marshal's Office is funded from revenues generated by fire insurance premiums, plan examinations, state seals for manufactured housing, entertainment permits, explosive magazine fees, fireworks-wholesalers, stands and displays, day care ministries, elevator and lifting device inspections, boiler and pressure vessel inspections, amusement ride inspections, underground storage tanks, and federal funds.
